

Application No. 10/042,196
Reply to Office Action of May 6, 2003
Amendment Filed: July 7, 2003

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-4 (Canceled)

Claim 5. (Original) A surface acoustic wave device comprising a plurality of surface acoustic wave elements, each having a comb electrode formed on a piezoelectric substrate and connection terminals connected to the comb electrode; and a package which has a die attach surface to which each of the connection terminals is joined or bonded through a bonding member, and in which said plurality of surface acoustic wave elements are housed side by side.

Claim 6. (Original) A surface acoustic wave device according to claim 5, wherein said plurality of surface acoustic wave elements include a surface acoustic wave element having a frequency characteristic different from that of other surface acoustic wave elements.

Claim 7. (Original) A surface acoustic wave device according to claim 5, wherein the connection terminal is formed into an elongated shape which is shorter along a direction in which said surface acoustic wave elements are juxtaposed.
